

IT Strategy

The Lever Group LLC

Strategy

- All organizations must sustain, change, grow or retire
 - Defining and understanding a clear concise vision and mission will establish the goals of the organization
 - A strong vision provides the necessary fuel to drive an organization
- A vision/mission that lacks strategy can never be put into action
 - Without measurable performance goals, any vision for the future will not be achieved
 - A well crafted strategy unites performance to vision

The Lever Group Can Help

- The Lever Group helps leadership establish a strategy that communicates to and motivates the organization
 - Our method focuses on the strengths of available assets and insures against potential obstacles to derive a plan of action with measurable performance indicators.
- The Lever Group works to lead our clients from mission development to physical performance
 - **Organizational Development:** We deliver a useful strategy that clearly defines success and how to measure performance toward success
 - **IT Strategy:** As discretionary spending diminishes, we help clients adopt strategies that maximize performance against agency missions
 - **Change Management:** We apply proven methods of managing that change, the lever group maximizes the benefits and reduces the risk to management and stakeholders.
 - **Action:** Our method will provide your organization with a measured plan of actions for programs and resources with concrete timelines and performance criteria.
 - **Performance:** We establishes a clear performance matrix that integrates quantifiable and quantifiable evaluation criteria.

Summary

- An organization's mission and strategy remain hollow until a strategy and performance goals are built to support it
- Part of developing a strategy is understanding and utilizing your organizations assets and skills
- The Lever Group works with organizational leadership and stakeholders to develop clear visions, comprehensive strategies to meet them, and the performance measures to assure success
